Staniless Steel Commercial Bread Crumb Machine Manufacture

Specifications :

Price	Contact us
Brand Name	LOYAL
Place of Origin	China
Min.Order Quantity	1
Payment Terms	T/T,L/C,D/P
Supply Ability	100
Delivery Detail	10-25 working days.
Packaging Details	Wooden case or wooden pellets depended on clients' require

Detail Introduction :

Advantage of Commercial Bread Crumb Machine:
Production Process Of Commercial Bread Crumb Production Equipment
Specifications Of Bread Crumbs Production Line Motor:

What Is Full Automatic Bread Crumbs Processing Machine?

Stainless steel commercial bread crumb machine manufacture is designed based on advanced twin-screw extrusion technology. Bread crumb machine has changed the traditional bread crumb production process. Bread crumbs processing machine extruder is commonly used for the products that need fried, crisp outside and soft inside.

The processing process of stainless steel commercial bread crumb machine manufacture is mixing, squeezing, cutting, crushing and drying, and the whole production line is fully automatic. In addition to flour, the raw materials for the production of bread crumbs can also be rice flour, corn flour, corn starch, soybean flour, etc. Various shapes of bread crumbs can be produced, including needle, granular, snowflake, flake, star, or various shapes to meet the different needs of customers.

Application of Bread Crumbs Production Line in Manufacturer

Extrusion Bread Crumbs Line and Fermented Bread Crumbs Line

Bread crumbs are widely used as food additives to wrap fried foods, such as fried chicken, fish, seafood (shrimp), onion rings, fried steak, fried chicken legs, fried chicken fillet, fried lotus root, fried fish. After being fried, the product coated with bread crumbs has a bright surface color and a smooth taste.

The "bread crumb" special bread crumb machine has changed the traditional bread crumb production process, from the fermentation production process to the direct extrusion stainless steel commercial bread crumb machine manufacture process, which simplifies the bread crumb production process and improves the product quality. The remaining materials can be reused without waste, which reduces the cost of bread crumb manufacturers and improves labor productivity.

Application of Bread Crumbs Making Machine in Manufacturer
Compared with the traditional fermented bread crumb production line, the extrusion type stainless steel commercial bread crumb machine manufacture has the following advantages.

Extrusion type Commercial Bread Crumb Machine VS Traditional fermented type Commercial Bread Crumb Machine	
Extrusion type bread crumbs production line	Traditional fermented type bread crumbs production line
Different shapes, taste more crispy and easy absorption	One shape, easy to be soft
Small footprint, not too much request for the workshop	Required strictly for the work environment
Bread crumbs production line can produce the puffing snacks, bar snacks, pet food by changing the processing and formula	Only can make bread crumb

Advantage of Commercial Bread Crumb Machine:

1)Belt transmission between motor and gear box,reducing energy consumption.
2)Feeding,main driving device, and rotary cutting device adopt inverter to adjust the speed with more

powerful drive, stable running, and low consumption.
3)Screw is made of alloy steel with long life. Segmental assembled screws are applied to more kinds of materials and products.
4)Automatic lubrication system can lower down power consumption and prolong the life.
5)Double screws of stainless steel commercial bread crumb machine manufacture feed equal materials forcibly.
6)Hanging mold and knives seat and bearing knife adjusting system can adjust the kniver exactly and swiftly.

Production Process Of Commercial Bread Crumb Production Equipment

Flour Mixer-Screw Hoister -Twin Screw Extruder- Muti Functional Shaper- Hoister- Crumb Machine-Drying Oven

Flow Chart Of Bread Crubms Production Line

Features of Stainless Steel Commercial Bread Crumb Machine Manufacture	
Name	Features of Bread Crumb Making Machine
Flour Mixer	The raw material adding to water and liquid chemical additive fully mixing in it.This part that touches mixer to material adopts the stainless steel material. The discharge hole adopts the new handle-opened design. It has the good seal so that the materials.
Screw Hoister	The mixed materials can be conveyed through it to the extruder feeder without any leaking, dusting and pollution; Feed quantity and speed is even and stable.
Twin Screw Extruder	Series of double-screw extruder mainly consist of feeding system, extruding system, cutting system, heating system, lubricating system and controlling system.
Muti Functional Shaper	The cutting machine divides the long products into standard length products, and the automatic feeding device at the front of the cutting machine arranges multiple long bars in a row. Knife cutting, cutting speed and traction speed are controlled by frequency conversion.

Hoister	Conveys the food from the low to high, according to the craft; decide the hoister height and the level distance.
Crumb Machine	Make the flakes into different shapes .we change the shape of machine to do the different sizes products .it have differet capacity
Drying Oven	Drying machine is a continuous production of drying equipment, it can use multilayers stainless steel mesh belt to achieve the material ’s feeding,transporting and discharging. It is used for continuous drying and cooling of agricultural products, medical herbs, pellets snacks, pastes, pet food or others. It can be used to bake and dry the food.

Specifications Of Bread Crumbs Production Line Motor:

Specifications Of Bread Crumbs Production Line Motor	
Attribute	Value
Power Rating	1.5 kW
Frequency Rating	50Hz
Efficiency Class	IE3
AC Motor Type	Squirrel Cage Motor
Phase	3
Output Speed	1445 rpm, 1450 rpm
Number of Poles	2
Mounting Type	Flange Mount
Current Rating	5.72 A, 9.58 A, 9.84 A
Maximum Output Torque	18Nm
Bearing Type	Deep Groove

Equipment Parts Of Bread Crumbs Production Line

Technical Parameters of Commercial Bread Crumb Production Equipment :

Technical Parameters of Stainless Steel Commercial Bread Crumb Machine Manufacture			
Model	LY-65	LY-70	LY-85
Installed capacity	80KVA	113KVA	190KVA
Output	150kg/h	250kg/h	500-600kg/h
Dimension	21.8×2×2m	25×2×2m	30×2×2m

Pictures of Bread Crumbs Samples:

The bread crumbs production line can produce different shape and size bread crumbs by changing the crusher sieve, which widely used in food additive for deep fried food, and mainly for frying food surface, such as: fried chicken, fish, seafood (shrimp), chicken, chicken wings, onion rings, etc. Its feature is crispy soft, tasty, delicious and nutritious.

Sample Bread Crumbs of Bread Crumbs Production Line

Sample Bread Crumbs of Bread Crumbs Making Machine
2021 Customer Order of Stainless Steel Commercial Bread Crumb Machine Manufacture

Customers Who Understand Bread Crumbs Production Line Processing Technology	
1	Bread Crumbs Production Line For Sale In Afghanistan
2	China Fully Automatic Bread Crumbs Production Line For Sale In Argentina
3	High Quality Most Popular Industrial Bread Crumbs Production Line For Sale In Comoros
4	Bread Crumbs Production Line For Sale In Afghanistan
5	Bread Crumbs Production Line For Sale In Argentina
Dealed Customers Who Purchase Big Output Bread Crumbs Making Machine In 2021	
1	Customized Bread Crumbs Making Machine For Sale In Congo
2	800kg/h Bread Crumbs Making Machine For Sale In Denmark
3	1000kg/h Bread Crumbs Making Machine For Sale In Congo
4	Customized High Efficiency Bread Crumbs Making Machine For Sale In India
5	1000kg/h Commercial Bread Crumb Machine For Sale In Denmark
Dealed Customer Have Plant Of Bread Crumbs Making Machine In 2021	
1	Bread Crumbs Making Machine For Sale In Fiji
2	High Efficiency Bread Crumbs Making Machine For Sale In Fiji

3	High Efficient Industrial Bread Crumbs Production Line For Sale In Germany
4	Bread Crumbs Production Line For Sale In Germany
5	Industrial Bread Crumbs Production Line For Sale In Fiji
Dealed Customer Whose Intruduction Of Old Customer Of Bread Crumbs Production Line In 2021	
1	Stainless Steel Commercial Bread Crumb Machine For Sale In Laos
2	Stainless Steel Bread Crumbs Production Line For Sale In Lebanon
3	Commercial Bread Crumb Machine For Sale In Lesotho
4	Automatic Stainless Steel Commercial Bread Crumb Machine For Sale In Mali
5	Fully Automatic Stainless Steel Bread Crumbs Production Line For Sale In Nauru

Stainless Steel Commercial Bread Crumb Machine Manufacture
