## Especificaciones :

Precio	Check with Microwave Drying Machine Team Saler
Nombre de la marca	Loyal Microwave Drying Machine
Número de modelo	Tunnel Conveyor Belt Type Automatic Industrial Tunnel Crystal Cats Litter Tofu Crystal Cats Litter Microwave Sterilizing Drying Machine
Lugar de origen	China
Cantidad minima para ordenar	1set of Microwave Equipment
Términos de pago	TT
Capacidad de suministro	20Days of Microwave Drying Sterilizing Machine
Detalle de Envio	20days/Microwave equipment assembly completed
detalles del empaque	Export-compliance microwave equipment packaging
Team	Microwave Drying Sterilizing Machine Technical Team
Sale Team	Professional microwave technology team
Honor	A Number Of National Microwave Equipment Patents
Technology	8 Years Of Microwave Technology

## Introducción detallada :

**tofu crystal cats litter microwave sterilizing drying machine** is a new drying method. When drying, the microwave energy directly acts on the medium molecules and converts it into heat energy.

Due to the penetrating property of the microwave, the medium can be heated at the same time without heat conduction, so the heating speed is very fast, and the drying speed can be shortened for foods with a water content below 30%. Hundreds of times.

### **Introduction Of Crystal Cats Litter Microwave Drying Sterilizing Machine**

Tofu crystal cats litter is generally made of tofu dregs and tofu fiber. A good tofu crystal cats litter is not only better in terms of deodorization, water absorption, and agglomeration, but also safer because the ingredients are mainly tofu dregs. It's okay to eat occasionally. The microwave tofu crystal cats litter dryer of Shandong Loyal Equipment Co., Ltd. is a new type of tofu crystal cats litter drying equipment designed according to the characteristics of tofu crystal cats litter and the principle of microwave heating and drying. Microwave drying is different from traditional drying equipment. Microwave drying also has a sterilization function.

### **How Long Does It Take To Dry a tidy cats litter?**

It only takes 3~6 minutes to complete the drying of crystal cat litter, no rolling friction, and the drying temperature is only 45 degrees to 65 degrees. Crystal cats litter handles water well and forms spheres easily.

**Parameters Of Microwave Tofu Crystal Cats Litter Drying Sterilizing Equipment Dryer Machine**

Crystal cats litter microwave drying sterilizing machine	
1. Model	Ly-100
2. Input power	380v/50hz, three-phase (customized)
3. Microwave input power	100kw (customized)
4. Microwave frequency	2450mhz±50hz
5. Rated input power	?120kva
6. Height	80mm
7. Belt width	800mm (customized)
8. Belt speed	0.5?10m/min
9. Dimensions (l×w×h)	17000×1000×1650mm (customized)
10. Working environment	Working temperature 0?40?, relative hu
11. Microwave drying capacity	Dehydration 100kg per hour (customized)
12. Control method	Plc touch screen

**Why We Would Choose Microwave Drying Tofu Crystal Cats Litter?**

Cat Litter Microwave Drying Sterilizing Machine	
Traditional crystal cats litter dryer	Microwave crystal cats litter drying steri machine
The traditional crystal cats litter dryer is a tumble dryer, which cannot keep the original shape of the crystal cats litter and is easy to damage the size and color of the crystal cats litter.	With a microwave dryer, the water in the handled well and spheres are easily form

Large area, easy to cause waste	The crystal cats litter dryer occupies a small area, is environmentally friendly
Low yield and uneven heating	The industrial microwave dryer heats evenly, ensuring high product quality
Long heating time, takes 6 hours	Small thermal inertia, instant heating, drying time in 3~6 minutes

#### How Do You Dry Flowers In The Microwave With Crystal Cats Litter?

Continuous microwave oven is a multifunctional continuous microwave dryer, microwave tunnel dryer can be used for drying roses and flowers at the same time. For the drying of some mosaic materials, these materials have a large moisture content and their properties are not very stable, so they need to be dehumidified quickly to avoid changes in color or internal components in the external environment for a long time. In order to ensure the appearance and quality of the dried flower, the whole drying process needs to be carried out in an industrial microwave dryer at a low temperature, and the temperature setting range is 45??65?.

#### Applications Of Microwave Tofu crystal cats litter Drying Sterilizing Equipment Dryer Machine:

Microwave drying dehydration machine for crystal cats litter production line

1. Microwave drying	Tenebrio molitor microwave drying machine, paper tray drying machine, bread crystal cats litter drying, insect drying equipment, traditional chinese medicine microwave drying machine for black soldier flies, microwave drying machine for rope drying, yarn drying equipment, fly maggot microwave drying, glass fiber drying
---------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2. Microwave baking	Low-temperature roasting of whole grains, soybean curing, red bean and barley millet microwave roasting, oatmeal microwave roasting equipment, pumpkin seed roasting, mung bean roasting, walnut microwave roasting, almond opening roasting
3. Microwave fixing	Microwave tea greening, rose greening equipment, dandelion greening machine, honeysuckle greening equipment, chrysanthemum greening equipment, green tea greening, highland barley seedlings greening
4. Microwave sterilization	Microwave spice sterilization, flour microwave sterilization, microwave nutritional yeast, microwave nut insecticide, wheat germ sterilization, microwave chili powder sterilization, microwave sterilization, walnut powder sterilization equipment, lotus root starch sterilization
5. Microwave heating equipment	Microwave lunch box heating
6. Microwave baking	Microwave prawn roasting machine, microwave small fish roasting machine, prawn roasting manufacturers
7. Microwave drying	Bread crumb dryer, honeysuckle drying, tobacco leaf drying equipment, tobacco leaf drying equipment, water retaining agent drying equipment, monocrystalline silicon drying equipment
8. Microwave drying of lithium carbonate	Insulation board drying equipment, perlite board drying, calcium chloride dihydrate drying, starch drying, paper tube drying, industrial salt drying, glass fiber drying
9. Microwave thawing	Meat microwave thawing equipment, microwave beef thawing equipment, microwave chicken thawing equipment, chicken microwave thawing equipment, duck microwave thawing equipment, frozen meat thawing equipment, microwave seafood thawing equipment, microwave slow thawing machine, tunnel microwave frozen mutton thawing equipment, microwave thawing chicken breast, fruit thawing machine
10. Microwave puffing	Shrimp slices puffing equipment, pork skin puffing, dried tofu puffing, puffing of

### Customer Cases For Microwave Drying Dehydration Machine for crystal cats litter Production Line For Factory In 2021

Shandong Loyal Industrial relies on complete product specifications, excellent product quality and professional services. It has been widely recognized by customers, obtained a good brand image, has mature and stable sales channels, and accumulated a large number of high-quality customers. At present, the company's products are in short supply and are exported to Asia, Europe, North America, Africa, South America and Oceania, with customers in more than 50 countries and regions around the world. If you are interested in the Microwave Drying Dehydration Machine for crystal cats litter Production Line, please contact LOYAL immediately, we will provide you with high-quality formulations of tidy cats litter drying, professional technical process guidance, and a full range of professional market analysis.
